

## ELITE Wrestling Singlets

Warhawk Wrestling singlet      NEW!! \$50.00 (actual cost \$65.00)  
   USED    \$35.00

There will be a one time order placed for team singlets through Coaches Choice. New singlets are a non-negotiable fee of \$50.00 and must be paid up front. These normally take 2 - 3 weeks to arrive. Wrestlers may not compete without a **TEAM** singlet. There are some used singlets for purchase, but these are issued on a first come, first serve basis and dependant on availability. For those who purchase new singlets, it should last for 2 seasons, possibly 3. Usually the younger the kids are able to keep the same size longer. We also provide a buy back program at the end of each season. The club will buy back used singlets that meet pre-established conditions.

### BRUTE singlets/sizes:

YS 40 - 55 lbs, YM 55 - 70 lbs, YL 70 - 85 lbs  
XS 85 - 105 lbs, AS 105 - 125 lbs, AM 125 - 150 lbs, AL 150 - 185 lbs, XL 185 - 225 lbs, XXL 225 - 265 lbs

### The criteria for singlet buybacks are:

Singlets must be the current style and have no visible wear apparent. Slight color fade is expected but any balling of material will be unacceptable. Instructions for the proper care of your singlet are posted below and can also be found on the team website [www.eliteyouthwrestling.com](http://www.eliteyouthwrestling.com). In addition to the instructions below, we also strongly recommend that the kids wear something over the singlets when sitting in the bleachers. Workout shorts and warm up bottoms work just fine.

All buyback decisions are final and at the sole discretion of Elite Youth Wrestling coaching staff. If the condition of the garment is acceptable, Elite Wrestling will purchase the singlet for \$25.00

### Singlet care instructions:

Congratulations! You have purchased the best wrestling singlet available. The fabric content is 90% Poly and 10% Lycra. To maximize the life of your garment, as with all synthetic fabrics, please use the following washing instructions:

Machine wash **SEPARATELY IN COLD WATER**. Hot water can cause color bleeding. Use mild (non-phosphorous) detergent. Phosphates can also cause bleeding. Do not wash white and colored garments together. Do not use chlorine bleach. Bleach will fade colors and weaken fabric. Remove garments from washer immediately and hang dry.

Following the above instructions will give your garments the long life they deserve. Bleach, hot water, and/or a hot dryer is your singlets worst enemy!

Thank you for buying BRUTE.

### Important Notice:

Sublimated singlets have graphic capabilities and performance qualities that are highly desirable. Unfortunately, a current inherent property of all sublimated singlet material is small picks and pulls are more visible than on regular dyed singlets.

Care should be taken to avoid contact with any abrasive surfaces. This would include Velcro closures on headgear, lace covers on shoes, or any other rough surfaces.

This wear is not a material defect but a limitation in all sublimated products.
